Professional Summary

I am a Bachelor of Science in Information Technology student at the North-West University I am an aspiring Software and Web developer, and I am open-minded and willing to get wider exposure and learning about technology. Information systems is crucial in helping organizations gather, analyze, maintain, and distribute data. My academic goal is to continue learning to a PhD level. My long-term goal is to create a positive impact on the people and companies I collaborate with in the technology sector, as well as to support underprivileged individuals who have the drive and potential to succeed.

Key Skills

Web development | Software development | Databases | HTML5/CSS3 | JavaScript | Responsive Web Design | Version Control (Git) | UI/UX Principles | Problem-Solving | Team Collaboration
